TIME: 7:00 PM to 9:00 PM

PROGRAM

"AERONAUTICAL CHARTS: LITTLE KNOWN FACTS"

Understanding chart information can save *time, money, frustration, and sometimes lives.*

Come out and join other pilots as Representatives from the National Aeronautical Charting Office answer our many questions about charts.

Questions like: (1) What are OROCA and MEF, and how are they used? (2) Which obstructions are charted and where? (3) Where are non-standard traffic patterns published? (4) What does the Mountain Pass symbol mean on the Sectional Chart? (5) How often does chart information change? (6) Is your chart current? (7) How will GPS affect your charts? (8) What are the plans for new products? And many more.
